Assessor Comments	A good line of well bred PTIC Angus cows that would be ideal to top up your herd before calving. The 'Corriedoun' herd uses high quality Angus bulls from local studs, with the aim of producing high quality functional cattle. These young to middle aged cows will mature into good medium to large frame cows. Vendor, Michael Campbell, mentioned they weaned steer calves in 2021 that avg 350kgs at 6-7 months of age. 1 Cow has a cloudy eye - not affecting vision at all.
