	Cattle were very good to handle with a small percentage becoming agitated in the crush whilst being weighed. Once back in the mob the cattle settled. A percentage of the steers required blocking up through gate ways and handled with minimal pressure. Steers are in feedlot pens and are getting handled daily which cattle are responding well to.		
Handled With	Bikes , On foot , Vehicles		

Assessor Comments	Buyers on offer are 28 Brahman x cross steers presenting in store to forward condition. These steers show all attributes to make future feeder steers or to take through to bullocks. Steers would also be ideal to background on an oats crop or put back into paddock and take them through heavier weight to suit the live export trade. Please note 1 head is still a male. *Buyers please note vendor has another 4 lots in same sale.
