Cattle were very good to handle with a small percentage becoming agitated in the crush whilst being weighed and mouthed, once back in the mob the cattle settled. Steers are in feedlot pens and are getting handled daily which cattle are responding well to.

Handled With Bikes , On foot , Vehicles

Assessor Comments Buyers on offer are 117 good quality Santa, Droughtmaster cross milk tooth steers presenting in store condition. These steers show plenty on length, depth and stand on adequate bone. Steers would be ideal to background on an oats crop, or feedlot with cattle already been bunked trained and taking them through to heavy feeder weight or grown into bullocks with potential MSA gradings. Buyers please note 1 steer has old blight scaring in one eye, 2 steers with fly rub and 3 steers showing late marking traits. Buyers this is your chance to secure 117 solid milk tooth steers presenting in store condition that are not to be missed. *buyers please note vendor has another 4 lots in same sale.*
