	Steers have been weaned and are starting to gain weight and frame going forward. There were 3 noted at assessment with a slightly weepy eye and 1 with some blue colouring from old scarring. On offered is an article with all the work done for you, steer weaned and on the do. You can rely on the quality in the breeding and know that these steers will continue you to grow in frame and gain weight given the opportunity. This is an article not to be missed.
