Assessor Comments	Offering a very well bred draft of unjoined Angus heifers being Lariggan bred & blood, with over 40 years of breeding. These heifers would normally be retained and joined, but with extra numbers in the 2021 drop they are surplus to requirements. An even draft, showing good bone & depth, with Lariggan cows stretching to larger frame, productive females. Presenting in fresh, forward store condition they are the ideal article to join for an autumn calving. Please note,

approx 75% were affected by ringworm at assessment but did not appear detrimental at all (refer photos & video) with heifers in healthy condition. Reflecting the quality of the herd it must be noted that the brothers of these heifers topped the Birregurra/Colac weaner sales in January. A terrific opportunity to acquire well bred Angus heifers to join.
