Assessor Comments	complete drop of 13 unweaned Angus Heifers in excellent forward condition. Weighing 314-422kg at assessment to avg 353kg with a full curfew. These are really neat calves with a huge amount of early growth just show them some feed and and watch them preform. Everything has been done they just need weaning and away they go with 2 doses of 7in1 they are primed to be finished on grass by the end of spring this year, or you grow out and mate for them to calve next autumn. the brother are also in today sale.
