 4 Head (100%) PTIC, from 1 to 2 months (at time of assessment 05/04/2022). Certificate Available.

Temperament	Yards	Crush	Paddock
	Quiet: 2 head Slightly Stirry: 1 head	Quiet: 3 head Stirry: 1 head	Temperament not assessed in Paddock

Stirry: 1 head

2 heifers were quiet in the yards with the Baldy heifer slightly stirred up more from being drafted out and handled. The cow was agitated and had also been drafted out and handled a bit. She was not aggressive more pushing at yard panels. I feel all would settle down in a mob but would need to be handled by experienced cattle people. Care would need to be taken with cow ensuring that she was unloaded into good yards as trucking could stir her up, Neither were aggressive at all

Handled With

Bikes , Dogs

Assessor Comments

3 PTIC heifers and 1 cow. The heifers were joined to LBE Glenanvon Blood angus bulls that the vendor had used on his own keeper heifers. The cow is joined to a Glenavon herd bull that vendors used also over own keeper cows. Th cattle are in this mob as the cows was the only dry PTIC cow they have and the 3 heifers are non Angus.
