Assessor Comments	A run of Angus PTIC females purposely joined to Eaglehawk and Hazeldean Angus sires. All heifers are PTIC Red tags Heifers present in store condition, they have been running on native pastures in the hills. Heifers offer a opportunity to secure PTIC Red tag heifers over 4months in calf. Heifers handle well at assessment and would fit well into a commercial Angus herd. On Preg testing the vet suggested majority of the heifers were between 5-6mths. A great opportunity to secure young breeders with their lives ahead of them. (3) heifers noted with white underbelly. (2) heifer noted with a blue eye not deemed detrimental to future breeders. (1) heifer showed fresh pink eye.
