Heifers are quiet and have been handled with bikes and horses. Some did get a little agitated closer in to the crush, but are generally quiet.

Handled With Bikes , Vehicles

Assessor Comments A very tidy line of quality Bongongo blood angus heifers ptic to a low birth weight angus bull. These heifers were the most fertile in a larger run of heifers that were joined for a restricted period and are well in calf to calve over a tight window. Please note one heifer has scarring in one eye, R14, 538kg full at assessment, see photos. The heifers are very well grown and very well bred and would make a quality addition to any breeding program.
