Outstanding temperament. Vendor spends an immense amount of time on cattle handling and as a result these heifers are very quiet.

| Assessor Comments | On offer is a very neat line of PTIC Angus heifers. These heifers are in calf to the impressive Bongongo P404. Selected by the stud principal himself for low birth weight, temperament and high growth figures. These heifers are to commence calving late June and are currently in excellent calving condition. These are deep sided females with plenty of upside and will continue to grow out into a great run of mature cows. This is a repeat program for the vendor to offer PTIC heifers so buyers can be confident in what they are buying. |
