Heifers are well behaved as a rule. The heifers were assessed directly after preg testing. As a group they move well through the yards, the odd heifer was slightly anxious in the crush. Nice heifers who will settle in well to their new home.

Assessor Comments	A very good quality line of 22 x Aug/ Sep 2020 Drop Lawson Blood heifers. The heifers were purchased direct from the breeder in April 2021. Originally destined to become part of the Wee Jasper Station herd, season and enterprise conflict dictates their sale. The heifers are medium framed, feminine, easy doing females who will mature into lovely productive breeders. To commence calving August for 8 weeks to LBW Bongongo Sires. The heifers are in great condition to manage towards a late winter calving. Note: 4 heifers have white on the udder, 1 in particular has expansive white from the udder forward to the navel and another just a fleck on the navel. (See media) 1 heifer was sited to have a small graze below the left eye from moving through the yards during scanning. The vendor has another line of 15 excellent PTIC heifers in todays sale.
