Assessor Comments: Opportunity to purchase a nice line of Charbray heifers that have been scanned 2 to 3 months in calf to a Milton Angus bull. These heifers were purchased at the Roma Sale-yards in Early November 2021 and have done well since arriving at Gala. They were purchased off Mrytleville Station at Injune Qld. These heifers were easy to handle in the yards and in the paddock when being mustered. I believe that these heifers possess the right temperament and will grow into large framed cows which will do a great job raising their calves. NB: At the time of scanning the contractor mentioned that it looked like these heifers had a very tight joining. Also the vendor has another small line of scanned heifers in the same sale
