Assessor Comments	8 PTIC Heifers acc. "Rosedale Nominees" - These heifers generally are retained in vendor's breeding program but only are on offer due to recent sale of property forcing herd dispersal. Majority presenting in forward store condition. These heifers are sired by Fernhill bulls. Selection of bulls is a stringent process for the vendor where low birth weight, growth, structural confirmation & temperament are a key focus - please see sires attached indexes on assessment. This line of heifers presents the opportunity for the successful purchaser to take on a neat line of heifers. ** Vendor offers another 2 lots of PTIC females in todays sale**
