| Assessor Comments | A small but tidy run of Hereford cows PTIC to the Angus bull. Good honest cows that had calves weaned off two weeks ago and are just freshening up in condition. Due to calve 9th September for 8 weeks with 4 out of 5 due to calve in first cycle. Mawarra Hereford genetics with Clea Angus (Rennylea based stud) calves inside. Cows were purchased out of the Goulburn district as mixed age cows and calves. Idea article to calve down and trade or as an addition to any Hereford herd. Please note: Vendor has other lot of earlier calving cows in todays sale. |
