Assessor Comments A small but tidy run of Hereford cows PTIC to the Angus bull. Good honest cows that had calves weaned off two weeks ago and are just freshening up in condition. Due to calve June/July for 8 weeks. Mawarra Hereford genetics with Bongongo calves inside. Cows were purchased out of the Goulburn district as mixed age cows and calves. Idea article to calve down and trade or as an addition to any Hereford herd. Please note: Vendor has other lot of earlier calving cows in todays sale. One cow with longer back toes. Not detrimental as she should raise a calf no worries but would need to checked again in 12 months, if on soft country. Due to preg test date, cattle can be re-tested over Easter if desired for peace of mind.
