Quiet: 5 head	Quiet: 4 head Slightly Stirry: 1 head	Quiet: 5 head

Very easy cattle to handle. They have had a lot of exposure to handling and yards, also being fed pasture hay also makes them quiet. The property has rotational grazing and this also makes the cattle very quiet

Handled With	Bikes , Vehicles , 4 wheel bike
Assessor Comments	3 in 1 Units that are in production and ready to go. They got in calf outside the property breeding program and in fact they all calved on the same day so the bull may have been in the herd of heifers for only a matter of hours. All the Yala Yala cattle are well handled and work through wooden yards. They are conditioned to hay and both dams and troughs and regularly moved through the property with paddock rotation.
