Assessor Comments	Buyers an excellent line of crossbred trade steers that show plenty of bone, depth and frame. These steers are best described as large frame and in forward store condition, that will excel with weight gains in the feedlot or on improved pastures. Vendors steers have a great performance record on feed and have a high feed conversion rate. Steers are all branded #1 with the selection mouthed all presenting milk tooth. This is a line of steers ready to perform on grain or grass with good compensatory weight gains. All steers HGP treated with a Revalor 400 in April '21'. At assessment 1 x steer noticed with some old blue eye scarring in but not affecting him, there was also 2 x steers noticed to have been late cut but a steers. **Vendor also 2 x other lots in same sale** Buyers this is advertised as a 2 deck line if they all don't fit on comfortably vendor is happy to leave a couple behind.
