	Steers were very good to handle through the yards. Very odd steer became a little stirred when in the crush. No steer became aggressive at all. Well handled young cattle. All bulls are all heavily selected on their temperament.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles							
Assessor Comments	A great line of quality young Shorthorn steers that have been born into a good season and show the softness that Weemabah Shorthorns are known for. Steers handled very well through out the assessment. This is the 2nd draft of the Moombidary steers for this offering and present very well and are a great opportunity to purchase top quality Shorthorn steers. Very odd steer marked a little late and may still be a little swollen at delivery, if there is any problem at delivery it will not be loaded. Treated 3 for the start of pink eye at assessment. If cleared up at delivery they will be included if not improved they will not be loaded. These steers have decades of breeding behind them and will not disappoint on grass or grain. Ideal steers to take on and grow out for other markets. Steers have in and around yards for the past 6 weeks due to extended mustering. Same vendor has 2 other lots of Shorthorn steers in the same sale totaling over 400hd of the one brand. 243-299kg to avg 272.4kg.
