Handled With	Heifers were good to handle through yards and crush, a couple were slightly unsettled while being mouthed. On foot								
Assessor Comments	A neat line of majority British bred heifers, they are in forward store condition and would be ideally suited to feed on, they have access to grain for the last 30 days and have been treated with Bovillis and would be ready to go. These heifers could also be used as replacement heifers if required. (Please note 3 heifers were observed with slight blue eye, photo of worst shown).
