Assessor Comments	60 preg tested empty Droughtmaster heifers. These heifers averaged 315kg empty at assessment on a 24 Hour curfew. They were purchased Ex- Cloncurry last year and have grown out well on native herbage and summer grasses. These were bred from "Eddinton" & "Telehone" Droughtmasters, renowned for their doing ability. They were 100% Preg tested empty on the 26/4 by Matt Crowley. They were easy to draft in a good set of yaEd's, but do have the ability to stir up when put under pressure. These heifers present as a good opportunity to take home and join being in ideal condition, or are a prospect for feedlotters being 100% PTE. Buy with confidence. Buyers note: Vendor has a lead Draft line of heifers in Weaner sale, along with PTIC line in Eastern States Cattle Sale.
