Assessor Comments	B-DBLE of Angus & Angus x steers, majority in the 340 - 400kg weight range, purchased steers to enter the large backgrounding operation here on the plateau, a wetter than usual season has created a huge feed gap, with very little winter feed planted, this weight range was selected to market to reduce the grazing pressure, these steers were purchased to supply and comply to feedlot specs, black coated cattle mostly of good Angus type, some showing slight x , % black baldy and broken baldy. steers a grazing very wet & bogged pastures, will do when on a rising plane of nutrition
