Assessor Comments	2 Decks of x bred light feeders, majority in the 340 - 400kg range, purchased steers to enter the large backgrounding operation here on the plateau, a extreme wetter than usual season has created a huge feed gap, with very little winter feed planted, this weight range was selected to market to reduce the grazing pressure, these steers were purchased to supply and comply to feedlot specs, principally Santa & Santa x, Charolais & Charolais x and Charbray, Brangus & Brangus x steers, steers are grazing very wet & bogged improved pastures, will do when on a rising plane of nutrition
