Assessor Comments	21 Angus steers, 2nd draft of July/August 2021 drop steers. Bred out of large frame Rennylea females and sired by Keringa	

Angus bulls. These are quality steers and will grow out into excellent bullocks or feedlot entry steers. A chance to put together the complete drop of 50. Steers were weaned at assessment into holding for 5 days on lucerne hay then let out onto fresh native pastures until delivery. Buyers please note calves had a big curfew prior to assessment, I've given them no weight gain and a 5% curfew to allow for weaning check.
