Assessor Comments	23 Angus/Poll Herford x heifers, November/December 2021 drop calves. Lead draft of a complete drop. Bred out of Poll Hereford heifers and sire by Alpine Angus bulls. Females were originally purchased out of the Bathurst region as PTIC heifers. A complete drop of heifers on offer today. These cattle will turn themselves inside out shown good feed. Heifers were weaned at assessment into holding yards for 5 days on lucerne hay then let out onto fresh native pastures, heifers have weaned well. Buyers please note calves had a big curfew prior to assessment, I've given them no weight gain and a 5% curfew to allow for weaning check.
