Assessor Comments	23 Angus Steer weaners. Steers are 7-8 months of age and present in healthy store condition. These steers have been weaned for the last 3 weeks and are ready to go forward given the opportunity. These Angus steers are from a Lawson bloodline based herd, using Lawson blood bulls that are selected for their growth. Extremely quiet steers and are a pleasure to handle in the yards. 2 steers noticed with old pinkeye scarring, considered not detrimental. 1 steer with white behind naval. Given the opportunity these steers will continue to perform for many future markets
