Vaccinates	
Vendor Comments	A Good selection of young rams that have been drafted on colour and growing ability. Wethers that are bred from the flock are known weight Gainers in vendors own feedlot situation.
Assessor Comments	The Vendor has presented a well covered and good standing Meat Master Ram with good length, frame and Mobility. The direction of breeding is white in colour with very minimal to no pelt. Weight for age is a strong factor in breeding as vendor uses Wether portion in own feedlot. It was noted at assessment a slight brown tinge in colour throughout body(see photos for clarification) which has come through the breeding of the rams also Larger Tail has come through from breeding . At Assessment Ram weighed 68kg With rising 2 teeth please see photo. Yellow Lot ID 711and Yellow PIC Tag Not represent Year Colour. This Meat Master Ram is a natural Haired ram with No Pelt to be shed. Natural Scurred Horn (see photos). Rams Have been Brucellosis Tested By St George Vets. Vendor states that the breed performs very well in his own feedlot situation and would be interested in buying back progeny for the feedlot. Buyers Please note the Vendor has a total of 12 rams in this sale.
