|---|---|
| Vaccinates | |
| Vendor Comments | A Good selection of young rams that have been drafted on colour and growing ability. Wethers that are bred from the flock are known weight Gainers in vendors own feedlot situation. |
| Assessor Comments | The Vendor has presented a well covered and good standing Meat Master Ram with good length, frame and Mobility. The direction of breeding is white in colour with very minimal to no pelt. Weight for age is a strong factor in breeding as vendor uses Wether portion in own feedlot. It was noted at assessment a darker brown tinge in colour throughout body (see photos for clarification) which has come through the breeding of the rams a larger tail also present with breeding. At Assessment Ram weighed 81kg With 4 teeth please see photo. Yellow Lot ID 330 and Green PIC Tag Not represent Year Colour. This Meat Master Ram is a natural Haired ram with No Pelt to be shed. Natural Scurred Horn (see photos). Rams Have been Brucellosis Tested By St George Vets. Vendor states that the breed performs very well in his own feedlot situation and would be interested in buying back progeny for the feedlot. Buyers Please note the Vendor has a total of 12 rams in this sale. |
| Assessor | **Lachlan Radford (Level 3 Accredited)** |
