Assessor Comments	A very nice line of scanned in lamb 1st X Ewes. Start of April shorn these ewes have really flown ahead over recent weeks and now present in "tip top" condition. Scanned up to the Marocara Poll Dorset rams for a nice tight 6 week lambing thru the July / August indicated by joining dates provided. There are 88 ewes identified as carrying multiples over the total mob so potential for excellent percentages here. Pretty much all the hard work done ewes with plenty of style, well worth considering.
