Assessor Comments	On offer is a top line of ewes scanned in lamb to 'Barwon' Poll Dorset Rams that are due to start lambing 24/6/22 for 7 weeks. These ewes are in ideal lambing condition and are coming from an extremely well bred flock that is managed with the highest detail. These come with the highest recommendation, as the progeny to these ewes prior to now have reach trade weights easily and export weights without a problem. The Mount Hugel ewe flock (including maidens) avg 139% lambing last year which is a very impressive result - these ewes are 152% in lamb at scanning.
