Assessor Comments	A very handy line of composite ewes all scanned in lamb with singles. These are extremely productive ewes and are being sold as surplus to requirement. These well-framed ewes would be great to value add or to start or add to an operation if high fertility and lambing percentages are your aim. There are 76 purple tag (2020 drop) ewes and 10 green tag (2019 drop) ewes in this mob and they are all scanned in lamb with singles. The Purple tag ewes were shorn in January 2022 and the Green tag ewes were shorn in late October 2021.
