Assessor Comments	A rare opportunity knocks here with the chance to purchase excellent quality young ewes in the prime of their life rising 3yo (about the hardest age group to ever buy) as part of the renowned "Dalrye" flock dispersal, these ewes still have many good years in front of them and are in ideal lambing condition. Scanner Brad Scott has indicated that the average across the "Dalrye" flock this year is 168%. The flock has aimed at highly fertile, easy doing , ewes that are great mothers and having sold lambs off here for many years I can attest to them having outstanding prime lambs.
