Vendor Comments	Selling our final mob of merino ewes to make room for composites.

Joining Details	Station Mated ram(s) put in: 07/02/2022 ram(s) taken out: 28/03/2022 (50 days) Ram Breed(s): Composite, White Suffolk To the vendors best knowledge, this lot has had no access to rams or stags aside from stated joining period.
Preg Scanned?	Yes, this lot was pregnancy scanned, by Sarah Higgins (Non-Vet Contractor on 04/05/2022). 100 % Scanned in Lamb, from 2 to 3 months (at time of assessment 13/05/2022). 39 % Multiples 61% Singles (of Ewes in Lamb)
Assessor Comments	Vendor is dispersing the last of their merino ewes due to transitioning into composites. These ewes all conceived as ewe lambs and every year following. They are 2019 drop green tagged and offer years of production. Scanned at 139% in lamb to LKS White Suffolks and Yarram Park Composites. Early lambing twins identified with blue siro mark on rump and singles have a red. Ewes marked on the shoulder are the later lambers with the same colours representing twins and singles. They are lighter in condition but are healthy and will benefit with a change in diet. They are medium-large frame Stud Park South and Aloeburn blood. A smart consignment of classed breeder ewes with a good start in the skin.
