Assessor Comments	The Sparrow family today offer 275 S.I.L Composite Ewe Hoggets joined to the Chrome and Paradoo Prime Composite Rams to commence lambing in July. These Ewes are only being offered due to the tough seasonal conditions and would have 100% been retained if not for pasture shortage. The Ewes averaged 54kg empty and apart from the top 20% which are score 3-5 majority of Ewes are carrying no excess condition meaning any succesful purchaser with the ability to feed will see a very quick weight gain. All ewes being offered today have had lambs as ewe lambs so are all proven breeders and would make a fantastic acquisition for any breeder or trader looking for young Ewes at not silly money.
