Assessor Comments	A great run of 195 Highlander Composite light green tag ewes. They are bred out of the Levantine composite highlander ewe flock and sired by specially selected, top end Karawarra Highlander Rams, with selection emphasis on growth, ema, worm resistance and constitution. Levantine has been breeding highlander composite sheep for 6+ years so these well-bred ewes are ready to fit into your next breeding program. All ewes have been drenched with Q-drench and are out of withholding on the 20/5/22. Only selling as the ewes are scanned empty, due to a much earlier and shorter joining period. All of these ewes had a lamb last year. Vendor would normally retain the ewes and keep within the breeding flock. Please note vendor has 1 other lot in sale
