	Weaners worked through draft well at assessment. Very quiet to handle through pound and big yards but did need steadying through race. Weaners will be run through draft a couple more times prior to delivery.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles		
Assessor Comments	Buyers a 2 x deck line of good quality PCAS eligible Santa & Droughtmaster X mixed sex weaners. This lot comprises of 28 x steers & 56 x heifers that are best described as medium to large frame relative to age and in fresh to store condition. Weaners are currently getting weaned in yards on hay but had a big curfew at assessment. A nice neat line of lightweight flatback red weaners that are ideal to put away on grass to heavier weights. At assessment noticed the odd weaner that had a rub mark around eye but not seen as detrimental.
