Cattle handled through yards well throughout the assessment process. Approx 7 % of animals became agitated when under severe pressure in crush and pound. Once finished with the assessment process steers settled quickly and were easy to handle whilst doing photos. These steers are worked with dogs, bikes & low stress stock handling techniques.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot
Assessor Comments	Buyers, an opportunity to purchase a line of soft British & Euro cross steers that have had all the hard work done to them and are ready to perform given the opportunity. Weight range at assessment of 206kg to 387kg they will have delivery weight of 285kg. These steers present with adequate bone and frame. The store condition of these steers represent a good opportunity and would be ideal steers to purchase to background out to trade/export feeder weights or to take through to fat on a crop. Vendor will offer the cattle clear of all stages of cattle tick at their expense with the use of an endectocide. Vendor has another two deck lot of steers in same sale.
