	Cattle handled through yards well throughout the assessment process. Approx 5 % of animals became agitated when under severe pressure in crush and pound. Once finished with the assessment process steers settled quickly and were easy to handle whilst doing photos. These steers are worked with dogs, bikes & low stress stock handling techniques.																																																																			
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot																																																																			
Assessor Comments	Buyers, an opportunity to purchase a line of Angus cross steers that have had all the hard work done to them and are ready to perform given the opportunity. Weight range at assessment of 205kg to 391kg they will have delivery weight of 253kg. These steers present with adequate bone and frame. The store condition of these steers represent a good opportunity and would be ideal steers to purchase to background out to trade/export feeder weights or to take through to fat on a crop. Vendor will offer the cattle clear of all stages of cattle tick at their expense with the use of an endectocide. Vendor has another one deck lot of steers in same sale.																																																																			
Assessor	Alex Dodson (Level 2 Accredited) Phone: 0437 837 520
