Heifers handled very well through draft and crush. With weaning and handling would expect heifers to become very quiet. Cows showed no signs of stirry behaviour while drafting.

Assessor Comments A top quality line of Brangus/Angus weaned heifers. Heifers are calves out of cows purchased ex Newcastle Waters Stud herd. Very well bred heifers that show good growth and bone. Very soft feminine types. Note: heifers have NLIS ear tag but are unbranded. Very good temperament. Being weaned since assessment until delivery. I have taken 5% weight loss delivery adjustment. Buyers to make their own judgement on assessment. Some heifers may have Boran influence as heifers out of purchased cows were joined to Boran bulls. Excellent heifers to take through to trade/export feeders or keep for future breeders. Vendor has not retained any heifers - this is complete drop. Vendor has two other lots this sale.
