An absolute pleasure to handle and obviously handling at weaning has helped. All cattle were quiet and worked through system without issue.

Assessor Comments	Offering a very neat and even line of future breeders or trade heifers that are excellent quality. Vendor bred, the heifers have been weaned approx 6 weeks ago and have done well since then. With an excellent body of feed in front of them they have enjoyed good growth and been given every opportunity under good management. Out of Kidman and Millah Murrah blood cows by Kidman Chariot Q79 they offer a great genetic base for breeding or replacement heifers or as good trade or feeder type cattle. They exhibit good depth and bone. They were quiet to assess and would make excellent breeders if purchaser desired. All were weighed with low weight 235kg and a high of 320kg to average 275 kg approx at delivery. A very nice and well bred lot of heifers.
