Assessor Comments: This is a fantastic opportunity to secure a quality line of EU accredited Angus Steers. These steers are out of a quality line of Angus cows. The cows consist of Diamond Jay bred cows and cows purchased out of the South out of very good Angus herds. The steers have plenty of body to work with, great shape and are soft coated cattle. The steers are by Knowla,

	Dunoon and Dulverton Angus sires. There are three steers with white underneath and one steers with a white belly also one steer with a loose sheath shows signs of other breed content which is not displayed in the cow herd. One steer with active pink eye that was treated at assessment. Steers have been returned to the paddock on the cows due to the consistent wet weather being in the best interest and welfare of the animals, will be removed from cows day prior to delivery. These steers present extremely well.
