Assessor Comments	A lovely line of Complete drop of Wagyu X Hereford Mixed Sex Weaner. These cattle will grow into feeder or trade cattle within the lucrative wagyu market. They would excel on crop or fresh pasture they have been weaned into smaller

	paddocks and had access to hay. By delivery these animals will all be weaned up and ready to fire on some good pasture and or winter crop. Weaners are by the good Longford Wagyu bulls (ID's: Longford M0347, M0360, L512, L505) out of Hereford cows. Based on 4 cow family's as listed in bloodlines info. They include cow family's purchased from The Bell family, Purcehouse Farms, CTK cattle co, Sevenbardot P/Herefords. NOTE some animals showing signs of sore feet due to the assessment process through muddy/stoney yards only. We have drafted the cattle to the best of our ability being what we thought were the most wagyu X cattle on type. Animals were drafted out of mob on visually identifiable factors typical to the Wagyu breed.
