Assessor Comments	A "top shelf" three deck load of feeder steers with all the boxes ticked. Purchased via the APlus ex "Widiewa Station" in December and the Wangaratta Weaner sales at the start of January These steers have been grazing highly improved fresh pastures over recent months and have progressed onto a fresh oat crop from mid April and are now presenting in ideal feed-on condition, primed to enter the feed pens in a very tight weight bracket. To fit in with most yard requirements the steers were treated with their first Bovilis MH + IBR shot and are timed ready to receive their second by delivery and induction. Please note extended delivery given in assessment to suit your induction requirements. If this had to be modified happy to work in.
