Handled With	Heifers are excellent to handle through the yards. Also visually quiet in paddock whilst taking photos/video. Bikes , Dogs , On foot , Vehicles			
Assessor Comments	3/4 Angus first calf heifers that have been tested by a vet to be in calf to speckle park bulls (6-12 weeks). These heifers are good quality with plenty of growth. Heifers are only drafted off their Angus sisters due to broken faces/excess white on their bodies. Heifers are good to handle and are in excellent condition for their age. Vaccinated with 5in1 and wormed recently these heifers are definitely worth a look. Located in a tick free zone for easy movements. Buyers please note the vendor has other cattle listed in the same sale.
