Assessor Comments	Quality Angus heifers PTIC, due to calve late august to mid October. Great line of Reiland blood Angus heifers that have been preg tested in calf to high indexing LBW Reiland blood bull. These heifers would be an asset to any breeding operation. Please note 1 heifer with white on belly/udder (last photo). 3 heifers noted with old blue eye scar not detrimental in assessors opinion. Nice line of Angus heifers with their lives ahead of them.
