Comment on Fat Score 1 Cattle: All Heifers are fit and healthy and would have no concerns trucking long distance. fat score is minimal however this would not be considered unusual considering the quality of fresh green pasture in their diet.

Vendor Bred: Yes

Stock History: predominately out of a line of purchased Brahman cows in 2019 with good quality and medium frame. Vendors herd consists of Bungoona and Lyons Brahman and Riverglen and Ayr Charolais genetics

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: Out of Charbray, Brahman and Brahman X Cows by Bungoona Brahman and River Glen and Ayr Charolais Genetics.

Grazing Conditions: A very good body of Green high growth Buffel, Mitchell and Flinders Grasses on semi-shaded pebbly downs and pulled gidgea and boree country.
Returned same

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
J-BAS Score	6
Vendor Comments	a line of heifers culled for too much Charolais content to keep as replacement heifers or out of Purchased cows. heifers have performed well in the paddock but need to be sold to make way for weaners coming through.
Joining Details	Station Mated - Continuously Joined Bull Breed(s): Brahman
Preg Tested?	No, this lot was not pregnancy tested.
Other Joining Details	approximately 30 young grey brahman bulls have been running with these heifers, bulls would be considered working age at time of assessent.

Frame		Quality Grades		Store Condition		Muscle Score	
Very Large	3%	Very Good	12%	Store	100%	B	8%
Large	32%	Good	78%			C	92%
Medium	58%	Fair	10%				
Small	7%						

Temperament

Yards	Crush	Paddock
Docile: 12 head Quiet: 100 head Slightly Stirry: 8 head	Docile: 6 head Quiet: 57 head Slightly Stirry: 12 head	Temperament not assessed in Paddock

Heifers have received a basic education as weaners and were typically good to handle through the yards. drafted through a pound draft before assessment and then through the race with minimal issues. Small percentage became slightly agitated in the headbail at weighing and mouthing with the odd heifer becoming agitated in the pound. Majority walked in calmly and looked for a gate and lead through the race with no concerns.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Horses , On foot , Vehicles
Assessor Comments	A good line of young Brahman & Brahman Cross yearling heifers. well suited as backgrounders for live export or feeders with plenty of softness about them. weaned and educated with plenty of potential these girls have the frame and room to continue moving forward to heavy feeders and enough quality to keep on as breeders . Good moderate frame, with tidy heads, good temperament and well handled. Larger percentage of these heifers are out of a mob of cows purchased in 2019, approx 40% genuine vendor bred portion is heavily influenced by the highly regarded Bungoona bloodlines with Charolais genetics through the core breeding herd including River Glen & Ayr. approx 35% of these heifers are considered flatback crossbred types predominately being Charbray/Charolais types. heifers are showing slight roughness in the coat, predominately in the neck area indicating possible lice however buffalo flies were prevalent at assessment with 5 heifers noted to have open bites on their neck.
Assessor	**Ashley Naclerio (Level 1 Accredited)** Phone: 0400 448 679
