Assessor Comments	A good to very good quality line of vendor bred Angus EU accredited steers. With medium to large frame they suit to background to export feeder steers and then into Angus feeder programs. Fourteen of the steers are sired by a mix of selected external Angus sires over stud cows with the balance by Moorroobie Angus bulls over commercial cows. They are being sold as the property is very wet and they are currently in pasture paddocks supplemented with grain and silage ration and are bunk trained. They have had a full vaccination program for 7 in 1 and 3 Day. Two steers noted with slight blue eye scarring in one eye. They are located just 5km east of Goondiwindi township and are very accessible for transport north or south.
