Assessor Comments	A line of 31 good quality Charolais cross steers presenting in forward store condition that show good growth and weight for age to have an estimated average delivery weight of 428.1kg. Buyers this is a good opportunity to purchase a line of milk

tooth steers that would be suitable for the feedlots or for the bullock growers with these steers showing the potential to grow into heavy bullocks at a young age on either grass or grain. Steers have been taught to eat having had access to grain in the paddock for the last 3 months.
