Assessor Comments	A nice, neat two deck line of feeder heifers being offered on account of the renowned Meadows Angus herd from the Oberon district. Preg tested non-detectable on the 22nd of April by James Sutton and treated with the Bovillis MH+IBR injection on Monday so should be timed close to spot on by delivery for their second dose. In perfect feeder condition and right in the slot weight wise. Worthy of close consideration - note extended delivery - happy to work in to marry up with another deck if that helps.
