Assessor Comments	Buyers a nice line of cold country very well bred Angus steers, all weaned up. Carrying some industry leading genetics most of these steers are from an AI program using Hazeldean M182 out of hazeldean blood heifers. They are ready to perform in the paddock provided the right conditions. They will suit taking through to feeder weights or going futher to an Export Grass fed program. A small tail of lighter steers have been removed from this line. 2 steers treated for active pink eye at assessment with a couple of others with small scarring. 1 steer with a down ear.
