|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessor Comments | **LEAD DRAFT OF THE WESTFARM WEANERS** 37 Angus Weaned Steers. Weighed 280 - 388kg to average 316.8kg at assessment. July/August Drop '21. These are exceptionally bred calves out of Large-Framed Westfarm Cows, by quality |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Kennys Creek and Reiland Angus Bulls. These calves were weaned at the start of April and are ready to power ahead. These calves would suit any backgrounding program and would grow into excellent bullocks. (Note: 4 of the softer steers are described as having a quarter Santa in them, still are 75% Angus; please see breed description)
